Kulturregionen Vadehavet welcomes visitors to the Wadden Tide sculptural exhibition.

The exhibition focuses on site-specific aspects of the cultural and natural surroundings in the Wadden Sea region and on themes that apply to all of our oceans. The exhibition takes place in the Wadden Sea National Park, a UNESCO World Heritage Site. The exhibition features works by artists representing many countries along the East Atlantic Flyway, an important bird migration route. The artists come from countries as far afield as Iceland in the north and South Africa in the south.

Wadden Tide is for anyone interested in art in nature.
